PROJEKT SZÁMA: SKHU/1902/4.1/049

PRESS RELEASE

The Interreg V-A Slovakia-Hungary Cooperation Program call SKHU/1902 entitled “Access2Health - Improving access to health interventions on both sides of the border” aims to establish cross-border co-operation between health care institutions for joint patient care.

CSPmed Kft, based in Miskolc, participated in the cooperation on the Hungarian side, and the Polyclinic in Nagykapos on the Slovak side, with the participation of the Erzsébet Hospital in Sátoraljaújhely.

Within the framework of the program, CSPmed Kft (3525 Miskolc, Kis-Hunyad utca 45 fsz. 3) acquired a multifunctional laser system, which can be used in surgeries and for the treatment of complications, scars, skin lesions and ulcers in the hospital in Sátoraljaújhely. The institution in Nagykapos procured a digital X-ray machine and sick beds from the provided source.

During the project, an exchange of professional experience took place at the Sátoraljaújhely Hospital, and the results were presented at the Polyclinic in Nagykapos. With the help of the equipment procured during the project, the path of patient care will be shortened, and the treatment of diagnosed patients in Slovakia in Hungary can also be realized with the laser system procured by CSPmed Kft.

The final press conference will take place on 31 May 2022 at 10 am in the Szent Anna Kolping House (Miskolc, Szent Anna tér 1), during which CSPmed Kft. Will report on the events and results of the project.
